SOME INFO ABOUT THE ECONOMY OF FRANCE:

- WHAT IS FRANCE'S MAIN ECONOMIC SECTOR:

The main economic sector in France is the services sector, which accounts for about two-thirds of GDP. This includes activities such as retail, tourism, financial services, and government spending. However, industry also plays an important role in the economy.

- WHAT IS THE FUTURE OF THE FRENCH ECONOMY:

The economy is expected to grow in 2023 and 2024, and inflation is expected to come down from its current high levels. The government is also taking steps to reform the economy, which could help to boost growth in the long term. However, there are also some risks to the outlook, such as the war in Ukraine and flare-ups of social unrest.

SOME INFO ABOUT THE ECONOMY OF SWITZERLAND:

- Switzerland is one of the top 10 economies by GDP per capita ranking (USD 92,000 in 2022)
- Approximately 74% of Swiss GDP is generated by the services sector and 25% by industry. The agricultural sector contributes less than 1%.
- Switzerland has maintained a low level of public debt relative to other countries even during the COVID-19 crisis. At the start of 2021, gross government debt (before deduction of financial assets) stood at approximately CHF 100 billion, representing 15% of GDP
